

Overview of impact of my.dS account migration on user's dS System.

User completed account migration	no				yes			
	1.17.0 or older		1.18.0 (or newer)		1.17.0 or older		1.18.0 (or newer)	
	1.8.0 or older	1.9.0 or newer	1.8.0 or older	1.9.0 or newer	1.8.0 or older	1.9.0 or newer	1.8.0 or older	1.9.0 or newer
... impact on ...								
Existing dSS to dS Cloud connection (i.e. dSS already had a connection to the dS Cloud prior to 06.04.2021)	Will continue operating. No action required by the user							
Creating new dSS to dS Cloud connection using my.dS add-on app on dSS (i.e. dSS on-boarding after 06.04.2021)	Not possible. (1) Update dSS AND either (2) complete account migration OR (3) create new account Only then on-board the dSS with this account		Not possible. Either (1) complete account migration OR (2) create new account Only then on-board the dSS with this account		Not possible. Update dSS and then on-board the dSS with migrated account		All ok. On-board the dSS with migrated account	
Existing dS cloud connection of dS Smart Home app to dSS (i.e. remote connection of app was established before 06.04.2021)	Will continue operating but at some time in the future it will be necessary to (1) update to the newest app version (2) complete account migration (3) re-login in the app with the migrated account	Will continue operating but eventually in the coming months it will be necessary to (1) complete account migration (2) re-login in the app with the migrated account	Will continue operating but eventually it will be necessary to (1) update to the newest app version (2) complete account migration (3) re-login in the app with the migrated account	Will continue operating but eventually in the coming months it will be necessary to (1) complete account migration (2) re-login in the app with the migrated account	Will continue operating but at some time in the future it will be necessary to (1) update to the newest app version (2) re-login in the app with the migrated account	Will continue operating but eventually in the coming months, a re-login in the app with the migrated account is necessary	Will continue operating but at some time in the future it will be necessary to (1) update to the newest app version (2) re-login in the app with the migrated account	Will continue operating but eventually in the coming months, a re-login in the app with the migrated account is necessary
Creating new ds Cloud connection of dS Smart Home App to dSS (i.e. connection of new user or re-connection of existing user after 06.04.2021)	Only possible if current dS Cloud connection of dSS was created before 06.04.2021. Eventually support for this case will be discontinued and user will need to update the app, complete the account migration, and login into the app with migrated account	Not possible. Complete account migration and sign into app with migrated account	Only possible if dSS already hat a connection to dS Cloud before 06.04.2021. Eventually support for this case will be discontinued and user will need to update app, complete account migration and login into the app with migrated account	Not possible. Complete account migration and sign into app with migrated account	Not possible. Need to update app and login with migrated account	All ok	Not possible. Need to update app and login with migrated account	All ok
Local connection of dS Smart Home App to the dSS	Will continue operating							
Alexa Skill integration	Will not work until account migration is completed and Alexa is re-linked to migrated my.dS account				Will not work until Alexa is re-linked to migrated my.dS account			
Google Home Integration	For the moment, will continue operating but eventually it will be necessary to (1) complete account migration (2) re-link is necessary to the migrated account				For the moment, will continue operating but eventually it will be necessary to (1) re-link is necessary to the migrated account			
IFTTT Integration	For the moment, will continue operating but eventually it will be necessary to (1) complete account migration (2) re-link is necessary to the migrated account				For the moment, will continue operating but eventually it will be necessary to (1) re-link is necessary to the migrated account			
dS legacy smart phone apps	Remote access will only work for apps which already had a connection before 06.04.2021. Local connectivity will continue to work							
ds-tools.net	Will continue working for apartments that already had a connection before 06.04.2021. New connections at the moment are not guaranteed to work correctly. We are working on this.
